

Leading Rapid Action Projects

A two day public workshop on April 11-12, 2019 instructed by

Charles A. Liedtke, Ph.D.

Strategic Improvement Systems, LLC

Strategy / Quality / Analytics / Improvement / Innovation

www.strategicimprovementsystems.com

Workshop Description

Rapid Action Projects are launched and executed when *time-to-results* (i.e., *speed*) is critical and the *conditions* are appropriate – **without sacrificing safety and quality**. Dr. Kaoru Ishikawa said it is important to “**Determine how to proceed quickly with caution.**” The different types of Rapid Action Projects include rapid discovery, rapid design, rapid standardization, rapid lean, and rapid improvement. There are various approaches used in industry for Rapid Action Projects such as workouts, rapid responses, strategy jam sessions, scrum sessions, and kaizen blitzes. Participants in this one day action-packed course will (1) learn about the various Rapid Action Project approaches and (2) learn and apply the necessary Rapid Action Project concepts, methods, techniques, and tools for success.
