Course Description

Organizations need employees who can help leaders identify and prioritize strategic issues and then launch and execute projects to accomplish strategic objectives. The field of ***Strategic Improvement*** continues to evolve with the integration of Lean and Six Sigma, the growing importance of Strategic Planning and Innovation, and the emergence of Big Data Analytics. A ***Strategic Improvement Black Belt*** possesses knowledge and skills in these and other areas. One of the *best practice* project execution approaches is *Lean Six Sigma*. This approach combines the "waste out" Lean techniques with the structured Six Sigma problem-solving method and tools to provide leaders with a way to improve both efficiency and effectiveness. This ten day ***Strategic Improvement Black Belt*** course prepares participants for this role through nine days of application-oriented training, practical assignments, project work, a final presentation, and a rigorous final exam. Participants will take their ***Strategic Improvement*** expertise to the *next level* and prepare themselves for the ***Strategic Improvement Master Black Belt*** level of mastery.
